

Astrological Occupation Analysis

Marco, the astrological significance of your individual constellation can give you important advice and tips, especially with respect to the future of your career and your professional success. If you are prepared to deal with the statements of the astrological career analysis in an unbiased and unprejudiced manner, you will be able to obtain valuable knowledge and insights that can have a decisive influence on your further professional advancement.

Judgments and opinions from society in general are less important in the selection of a career that is suitable and appropriate to your character: rather, your personal aptitude and ability to perform a certain activity well and gratifyingly are in the foreground. For this reason don't let the interference and influence of those around you dissuade you from your own true ideas. It has too often been the case that a wrong and inappropriate career choice has had long-term consequences that reach far beyond the actual sphere of activity. Inner dissatisfaction, psychosomatic illness, and profound disruption of your inner life may be the consequences if you decide, against your inner convictions and your true nature, upon a career which does not correspond to your abilities and capabilities.

But if you decide to pursue an occupation that corresponds to your nature and your strengths and gifts, with respect to your career you will be able to achieve results and successes of which you earlier could only have dreamed. Astrological vocational analysis enables you to live up to your true destiny; in this way you will not only pursue a particular career, you will meet your real calling.

Such significant writers and poets as Maxim Gorky, Charles Baudelaire, Nikolai Gogol, Wilhelm Busch, Hans Christian Andersen, and Emile Zola were born under your sign of the Zodiac. Their words, which were original and trailblazing, have lost none of their meaning to this day.
